PURPOSE

This status report is used as a guide by the team to monitor the progress of the current project at hand. The Network Threat Detection System is a system that would be able to monitor zero-day attacks.

2   PROJECT STATUS REPORT

2.1 Project Status Report Details

- Task Updates o Project Prototype

    - o The project must be finished as soon as possible, in order to run series of tests to ensure the prototype is working properly.
    - o The team is having a hard time configuring the Honeypot to SNORT.
    - o Although, the team is trying it's best to conduct series of tests from what they having working at the moment.
    - o The project milestones will be changed gradually if the Honeypot isn't connected to SNORT.

- There is no budget required as of the moment

- The biggest problem we're facing right now is connecting Honeypot to SNORT

- The team needs to hurry up the progress of the prototype in order to be able to move on.
